

BLUE GROWTH SUMMER SCHOOL

9 SEPT - 20 SEPT 2019 | OSTEND, BELGIUM

For Master or PhD students passionate about the sea.

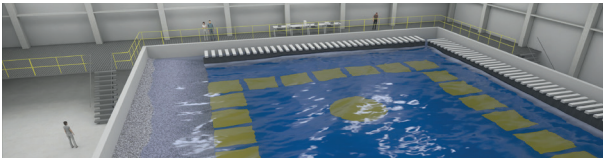

BGSS 2019

The Blue Growth Summer School combines science, business development and entrepreneurship through lectures and interactive sessions, topped off with excursions and socio-cultural activities.

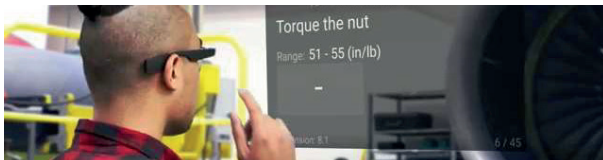

PROGRAMME

Relevant Blue Growth themes are covered in a maritime (9-13 sept.) and marine module (16-20 sept.), e.g.:

- Visit to the new facilities of Flanders Maritime Laboratory with the Ocean and Coastal Basin and towing tank.

- Session on Augmented Reality & Virtual Reality.

- Lectures on wind, wave & tidal energy, sustainable seafood, innovation and entrepreneurship, ocean pollution, ...

- Ecosystem approach to fishery management: visit to Flemish fish auction.

JOBFAIR

The students present their assignments at an award ceremony, associated with a job happening.
